

# Student Questionnaire Guide

It's time to complete your Student Questionnaire for your Sora Schools application. You can log in to Sora Home to complete this section.

To help you prepare to complete this task, below is information on what we are asking you to respond to in the application.

You can conveniently print this and use it as your checklist as you prepare your responses

---

## Student Questionnaire

The student questionnaire is divided into **three sections**. We are most interested in knowing more about you, your interests, and experiences in and outside of school. Below are the questions you will answer so you can start thinking about your responses.

1

- ☐ Why are you interested in attending Sora Schools?
- ☐ What are some of your hobbies, interests, and activities outside of school?
- ☐ When you are struggling with an assignment, task, or project, what do you do?

2

- ☐ If you were a teacher, what would you teach, and why?
- ☐ Describe in detail a time you worked on something collaboratively either in or outside of school?
- ☐ Did you achieve it? Were there any challenges along the way? What did you learn from this experience?

3

- ☐ If you could solve a local, national, or global issue, which would it be, how would you solve it, and why?
- ☐ Describe something you recently learned or taught yourself independently. How did you go about acquiring the new skill or idea, and what was the result?
- ☐ Please share anything else you'd like us to know about you and/or your family.

At Sora, we are looking for students who demonstrate open-mindedness, intellectual capacity, curiosity, motivation, and independence. Please be as thoughtful and detailed in your responses as possible. We look forward to reviewing your application!
